PRIORITY RESPONSE TO MINIMIZE BUSINESS INTERRUPTION

When minor damage or major disasters happen, one thing is for sure: They never come at a convenient time. The question is...will you be ready to respond? Last-minute decisions in the face of a disaster are almost certain to increase both the time and cost of recovery. That's why we created the **Priority Disaster Response Program**.

The Priority Disaster Response Program truly consists of a partnership, in which we work with our customers to develop an emergency response plan. We discuss and identify priorities for your company, perform a property walkthrough, set expectations and outline procedures to follow should a disaster occur. It allows us to provide a better overall experience for our customers should a disaster strike, because all of the logistics are taken care of ahead of time. We have a plan going into a loss, we know how we will handle the loss and we can get to work quickly because we are all on the same page before our crews even arrive on-site.
