

BMS CAT BIOHAZARD REMEDIATION.

Our professional and respectful teams have successfully handled the cleanup process for various challenging circumstances across the country. Each biohazard cleanup situation can produce a unique set of challenges, and it is essential to rely on professionals to manage the potential health risks that these conditions present.

OUR BIOHAZARD CLEANUP ENSURES SAFETY FOR EVERYONE

Safety

First and foremost, our crews work to identify any potential health or safety risks, and are equipped with protective equipment.

Cleaning

We will remove unsalvageable items, and properly dispose of these items in biohazard bags.

Disinfecting

We will disinfect by using proper chemicals and dwell time in order to thoroughly sanitize the affected areas.

Deodorization

Utilizing advanced deodorization techniques, our technicians remove germs and neutralize offensive odors.

Disposal

All contaminated or soiled materials will be properly disposed of, based on local and federal regulations.

24/7 Response

If you need cleanup assistance after a traumatic event, contact us or call 866-621-7722 for 24-hour emergency response services.

RESTORE. REBUILD. RECOVER.
