

# THE MOLD REMEDIATION EXPERTS SINCE 1948.

The longer you're exposed to toxic black mold, the more it can damage your health and the health of others. So, if you suspect the mold is in your home, office or commercial building, it's essential that you contact a professional black mold remediation company immediately. Our goal is to target and eliminate the mold at its source, taking significant steps to correct the problem, in a way that prevents it from happening again.

## HOW WE MITIGATE AND REMEDIATE MOLD

Whether your mold problem is occurring in commercial or residential areas, we're here to help you restore your property - with the help of seasoned professional, proven solutions and first-rate equipment. As a highly trained, professional mold removal company with decades of experience with mold damage restoration, our tested, proven process includes the following:

### Inspection & Evaluation

Our trained professional teams will perform initial inspections to formulate the best unique plan of attack for removing mold growth and restoring the property.

### Health & Safety Assessment

A certified Industrial Hygienist is recommended to identify the scope of the project while defining any potential health and safety risks.

### Containment

Then, containment protocols can begin. At this stage, the goal is to contain the mold and prevent mold spores from spreading into unaffected areas where additional mold growth can propagate.

### Drying & Dehumidification

A key aspect of containment is the application of drying and dehumidification equipment and tools, including specialized commercial-grade fans, desiccants and specialized dehumidifiers designed to accelerate the process and prevent future growth.

### Mold Removal

The next step is to deploy professional mold removal and remediation services to help kill existing mold spores, taking great care to eradicate mold completely from the building and eliminate any chance of additional spread.

### Reconstruction & Repairs

The final step is to repair any parts of the exterior or interior of your home or business that were required to be removed during the restoration process.
