

A catastrophe doesn't need to be a disaster to cleanup.

We have helped mitigate fire, water and storm damage for more than 75 years. No one is more capable or efficient when it comes to disaster recovery—regardless of size. We know that we're not just rebuilding houses and businesses, we're rebuilding homes and livelihoods. A partnership with BMS CAT can ease the road to recovery for you and your clients.

**RESTORE.
REBUILD.
RECOVER.**

A trusted partner for insurance companies, brokers and adjusters since 1948.

Turn-key approach with a proven track record.

- Dedicated reconstruction teams handle everything from restoring a small section to a full-scale commercial rebuild.
- 24/7/365, we provide turn-key reconstruction services to get your clients operational quickly, with minimal interruption.
- One single point of contact from beginning to end for agents, brokers & adjusters. We manage the entire process, from mitigation to restoration to reconstruction providing your clients with as seamless of a process as possible.

Saving time for you and your clients.

- As America's longest-standing restoration company, we know that time is the single most important factor in disaster recovery.
- Every minute that passes following a disaster is critical to recovery. That's why it's crucial to have a response plan in place before something happens.
- BMS CAT offers 24/7 emergency response services, 365 days per year. One call to our contact center will quickly dispatch crews to your client's site and get them on the road to recovery.
