Cleaning

Disaster Recovery

Mold Remediation

Biohazard  
Cleanup

A photograph of a man and a woman in a healthcare setting. The man, on the left, is wearing a blue polo shirt with a logo that reads "BLACKBOARD MEDICINE" and "SINCE 1984". He is looking down at a clipboard held by the woman. The woman, on the right, is wearing a light blue button-down shirt and is smiling while looking at the clipboard. The clipboard has a logo that reads "BLACKBOARD MEDICINE" and "EMERGENCY". In the top left corner, there is an orange circle with the word "SAFE." in white.

# SAFE.

## Patient safety is our top priority.

We understand that healthcare is a unique environment, and uninterrupted service is absolutely necessary. It is our top priority to ensure patient, personnel and visitor safety throughout the recovery process.

Our team is trained in the various facets of Infection Control Risk Assessment (ICRA).

We can help identify areas of potential concern, and develop strategies for completing remediation and reconstruction projects without affecting adjacent operations. We

incorporate Interim Life Safety Measures (ILSM) into our protocols to ensure free and unobstructed access to emergency services.

# EFFICIENT.

## Getting you back to business to maximize patient satisfaction.

If we have learned anything in the 70+ years we have been in business, it's that time is the single most important factor in disaster recovery.

Regardless of the extent of the damage, the way in which you respond will determine the ultimate outcome. Every minute that passes after a disaster is critical to recovery, which is why it's crucial to have a response plan in place before an event occurs.

Fortunately, BMS CAT offers 24/7 emergency response services, 365 days per year. One call into our contact center will dispatch crews to your site quickly, so we can get to work and restore normalcy to your environment of care.

# OUR HISTORY

## 1950s <<

The 1950s were a time of growth in the Dallas-Fort Worth metroplex, with residential cleaning and small restoration projects.

## 1970s <<

This era was marked by technological innovation. New inventions and patents were obtained for various types of cleaning machinery.

## 1990s <<

BMS Global was created to offer a new line of services – the restoration of personal effects following catastrophic transportation accidents.

## 2020s <<

The company culture, legacy and rich history will continue to pave the way for success in the future.

## >> 1960s

Blackmon Mooring focused on geographical expansion throughout Texas and Oklahoma, becoming a household name.

## >> 1980s

Following the Las Vegas hotel fire recovery, the company launched the BMS CAT division to respond to any type of disaster, anywhere in the world.

## >> 2000s

BMS CAT responded to the September 11th attacks and hurricanes Katrina and Ike, and later recovered the personal effects from US Airways Flight 1549 after it landed in the Hudson River.

# WHY US? A MESSAGE FROM OUR PRESIDENT & CEO

Having been in business since 1948, we have seen it all. Our biggest takeaway and best piece of advice is to expect the unexpected. It is natural to simply hope for the best, but it is wise to prepare for the worst.

For more than 70 years, we have helped thousands of customers recover from disasters – both big and small. By providing reliable recovery and reconstruction services to mitigate fire, water and storm damage, we help reestablish patient care.

Our dedicated healthcare division is committed to delivering reliability, quality and superior customer service to those we serve. After all, the customer has always been the cornerstone of our business and will continue to be.

Jim Cashman, President & CEO
